DOVEY
CORPORATION

Setting the standard in quality since 1955.

100% Stitch Tab Removal

SEBRING Tab Strippers

with Piercing Point Technology™

**DOVEY
CORPORATION**

Setting the standard in quality since 1955.

Guaranteed to strip 100% regardless of tab scrap size.

Operate from self-contained lower anvil geometrical forces - No external parts or energy sources required.

Manufactured as integral part of standard glue tab knife holder on slotter heads 35" and up. Complete glue tab knife holders supplied.

The Sebring Tab Strippers are being successfully used on the following manufacturer's machines:

- * McKinley
- * Ward
- * Curioni
- * Langston
- * S&S
- * Grant
- * Hooper
- * Serenco
- * Amatek
- * Bostitch

*Bolt-on direct replacement for OEM holders
"NO modifications necessary"*

Anvil and Knife Life are typically Doubled

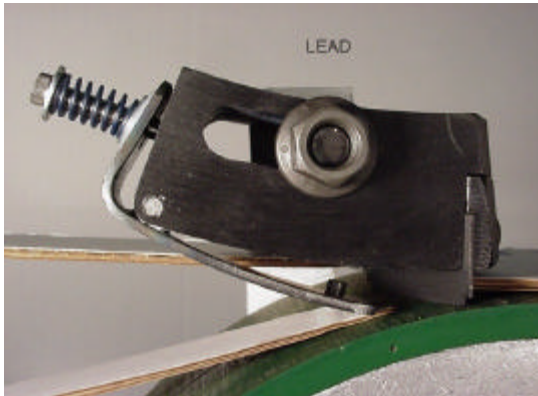

Sebring Tab Strippers are now being manufactured to fit 3" and 4" tab cutting equipment.

Additional improvements include:

- * Hardening of all strippers components
- * Use of needle bearings at pivot points
- * Hardening of entire block (when necessary)

Sebring Tab Strippers with **PIERCING POINT TECHNOLOGY™**
